SUMMARY

Computer Engineering graduate from ITS with strong analytical and business-intelligence capabilities, skilled in Python, SQL, and Power BI for end-to-end data analysis and dashboard development. Delivered data-driven business recommendations across e-commerce and EV market research projects, translating large datasets into actionable insights. Complements technical analysis with business process documentation and stakeholder-facing reporting experience.

EDUCATION

- Institut Teknologi Sepuluh Nopember** Aug 2021 – Aug 2025
Bachelor in Computer Engineering – GPA 3.34/4.00 Surabaya, Indonesia

WORK EXPERIENCE

- Turnkey Inside** Dec 2025 – Mar 2026
Executive Assistant – Financial Technology & Operations Batu, Indonesia
 - Conducted structured analysis of 5 proprietary trading firms, evaluating each across 10+ quantitative and qualitative criteria: payout rules, profit split, drawdown limits, penalty structures, and blocked country lists, producing a ranked recommendation report for executive decision-making
 - Built a consolidated daily P/L tracking dashboard in Excel aggregating trading results across multiple traders and platforms, enabling performance comparison by individual and channel to surface underperforming areas
 - Documented 10+ operational workflows across 6 process areas, reducing task ambiguity and standardizing daily operations across 4 divisions (finance, support, product, business)
 - Evaluated 5+ vendor proposals on scope, cost, and feasibility, and tracked milestones across 5+ concurrent projects, clarifying requirements, and escalating blockers to ensure on-time delivery
- PT Satkomindo Mediyasa** Feb 2024 – Jun 2024
Intern – Business Development Jakarta, Indonesia
 - Conducted market and regulatory research across the IoT and industrial automation sector, producing competitive benchmarks that directly informed strategy for 2+ prospective client engagements
 - Built a remote IoT monitoring dashboard for 200+ deployed devices across Indonesia, reducing manual on-site checks during deployment management
- Institut Teknologi Sepuluh Nopember** Aug 2024 – May 2025
Laboratory Assistant – Multimedia and Internet of Things Laboratory Surabaya, Indonesia
 - Delivered hands-on lab sessions for 40+ students per semester across embedded systems, IoT, and machine learning, translating complex technical concepts into practical, deployable projects
 - Supported students end-to-end from hardware setup to cloud integration, ensuring each cohort completed real-world system deployments within semester timelines

PROJECTS

- E-Commerce Delivery Performance & Customer Satisfaction Analysis** Apr 2026
Tools: Python, Pandas, Matplotlib, Seaborn, Power BI, DAX GitHub
 - Performed root cause analysis on 113K+ orders across 27 states and 71 categories to identify key drivers of late deliveries and customer dissatisfaction
 - Applied correlation analysis to quantify satisfaction impact of delays: on-time orders averaged 4.2/5 vs. 1.8/5 for delays >7 days – a 57% drop with direct platform reputation risk

- Used segmentation analysis to isolate Northeast Brazil as primary operational risk (AL: 20.88% late rate vs. 6.58% national avg), distinguishing infrastructure failure from volume issue via trend and outlier analysis

• Global EV Market Dashboard Architecture

Apr 2026

Tools: Python, Pandas, Power BI, DAX

[GitHub](#)

- Conducted end-to-end EV market analysis across 4 countries (2019–2023) using Python and Power BI, revealing India's 120% CAGR as the fastest-growing market despite only 4.7% market share
- Identified BYD's volume dominance (13M+ units vs. Tesla's 2M+) and a positive correlation between rising fuel prices and EV adoption rates

• IoT-Based Machine Life Monitoring on Lathe Machine (Thesis)

Feb 2025 – May 2025

Tools: ESP32, Next.js, React.js, Express.js, MongoDB

[GitHub \(Backend\)](#) | [GitHub \(Frontend\)](#)

- Designed and built a real-time IoT data pipeline monitoring system tracking lathe machine lifespan by counting revolutions via sensors, with live visualisation on a custom web dashboard

• Google Maps Review Crawler

Jun 2024 – Aug 2024

Tools: Python, Selenium, Pandas, ChromeDriver, CSV

[GitHub](#)

- Built an automated crawler to collect and analyse 1,000+ Google Maps reviews from malls in Surabaya, extracting sentiment patterns and behavioural insights

LEADERSHIP

• Student Legislative Council (BLM), ELECTICS Faculty – ITS

Feb 2024 – Feb 2025

Chair, Student Outreach Division

Surabaya, Indonesia

- Led 6+ department-wide surveys and 10+ focus group discussions engaging 700+ students, authoring 3 formal reports that directly informed faculty policy decisions

• Student Legislative Council (BLM), ELECTICS Faculty – ITS

Feb 2023 – Jan 2024

Legislative Council Member

Surabaya, Indonesia

- Drafted and reviewed 7 legislative documents and represented the ELECTICS student body in monthly plenary sessions, voicing academic concerns and institutional feedback

SKILLS

- **Data & Reporting**: SQL, Python, Pandas, Microsoft Excel, VBA Macros, Power BI, DAX, Data Analysis, Data Visualisation, ETL Pipelines
- **Technical**: REST API, Postman, Docker, Git, GitHub, Next.js, React.js, Express.js, MongoDB, Vercel, Cloudflare, Java, JavaScript
- **AI & Machine Learning**: Generative AI, Snowflake, OpenCV, TensorFlow, Jupyter Notebook, PyTorch
- **Business Process & Workflow**: Process Mapping, SOP Development, Workflow Documentation, Business Process Analysis, Requirements Gathering, SDLC, Cross-functional Coordination, Stakeholder Management, Vendor Evaluation, Project Management
- **Tools & Collaboration**: Google Workspace, Lark, Figma, Draw.io, Canva, Gather

CERTIFICATIONS

- **Business Analysis Professional Certificate – Microsoft**, [Certificate](#) Jun 2026
- **Career Essentials in Data Analysis – Microsoft & LinkedIn**, [Certificate](#) Jun 2026
- **Data Fundamentals – IBM SkillsBuild**, [Certificate](#) Apr 2026
- **Intro to Data Analytics – RevoU**, [Certificate](#) Aug 2025
- **Machine Learning with Python Professional Certificate – Anaconda**, [Certificate](#) Jul 2026
- **Statistics Foundations Professional Certificate – Wolfram Research**, [Certificate](#) Jun 2026
